

PREMIUM COMPOUND FERTILIZER
Mbio Plus 13/6/27/4MgO +20% Mbio Biochar (MOP BASED)
FORMULATED WITH Mbio BIOCHAR FOR LONG TERM SOIL ENRICHMENT

Mbio Plus NPK 13/6/27/4MgO + 0.65B + 20% Mbio Biochar is a premium compound fertilizer formulated to enhance root development, optimize Nutrient Use Efficiency (NUE), and promote vigorous flowering and fruiting. Its balanced formulation with biochar enrichment makes it ideal for plantation, horticultural, and fruit-bearing crops—delivering improved yield quality and long-term soil health.

Recommended Application Methods

Suitable for	Matured oil Palm and other crops.
Application Method	Broadcasting, side dressing, or mixing with soil during planting.
Usage Rate	2-3kg per tree, 3-4 rounds per year for matured oil palm (>5 years). Adjust rates according to crop type, soil condition, and growth stage.

Benefits of Mbion Biochar

- ◆ Eco-friendly bio-fertilizer solution
- ◆ Increases Nutrient Use Efficiency (NUE)
- ◆ Improves soil fertility, crop yield, and quality
- ◆ Utilizes beneficial microbes in existing soil
- ◆ Provides soil conditioning
